US 202/NH 9 DETOUR AT LIBERTY HILL ROAD OVERPASS IN HENNIKER
FOUR TO SIX WEEK DETOUR TO ALLOW FOR BRIDGE DECK REPAIRS

The New Hampshire Department of Transportation announces a planned detour on US Route 202/NH Route 9 in Henniker around the Liberty Hill Road Overpass will be put in operation during the week of August 14, 2006.

This detour is necessary in order to allow bridge deck repairs to take place on the Liberty Hill Road Overpass. It will be in place for four to six weeks. During this time there will be no access to Liberty Hill Road from the detour.

Message signs will in place at the approaches of the detour to advise motorists. The speed limit for the detour will be posted at 45 MPH.

This bridge repair work is part of a road rehabilitation project on US 202/NH 9 in Henniker and Hillsborough. Pike Industries of Belmont, New Hampshire is the general contractor for the \$3.3 million project, which is scheduled to be completed in October 2006.
